Director's Message

Welcome to IISWBM!!

IISWBM, the first management institute of India was established by Dr. B. C Roy, the then Chief Minister of West Bengal as its Founder-President and Prof. D. K Sanyal as the first Director. The Institute has successfully completed its Diamond Jubilee Year, signifying eventful journey in management education in India for more than 60 years and is known for introducing and successfully conducting socially relevant and innovative management programmes.

Our vision is to make IISWBM a globally visible centre for excellence in management education. It is our pleasure to announce the fourth batch of the Post Graduate Diploma programme in Business Analytics and the second batch of the Executive Post Graduate Diploma programme in Business Analytics in

collaboration with iNurture Education Solutions for the academic session 2018-2019. This course is a blend of knowledge as well as technology which provides additional employment opportunity to bright young students and imbibes them socially.

We are committed to providing a complete learning environment to our students to equip them to manage organisations of tomorrow with new ideas which can provide the leverage and the power to meet the challenges. The Institute's rich tradition, ability to combine time-honoured values with state-of-the-art technology constitutes its strength and makes it unique.

We are confident that this course will become an instrument to promote inclusive growth and ensure that the fruits of economic development reach broader masses of the society. We would like to reiterate that the link between IISWBM and iNurture would be further strengthened and widened not only for mutual benefit, but also for the entire academic community and society at large.

Prof. (Dr.) Rajagopal Dhar Chakraborti
Director

About IISWBM

IISWBM was constituted on 25th April 1953 by a resolution passed by the Senate of the University of Calcutta. The meeting of the Senate was presided over by Mr. Justice Rama Prasad Mookherjee. This was the culmination of the joint initiative taken by the University of Calcutta, the Government of West Bengal, the Government of India and the captains of industry to set up for the first time a management education institute in India, a concept alien to many in the educational fraternity at that time. In the year 2013, the institute completed its Diamond Jubilee signifying 60 years of an eventful journey in management education in India. IISWBM, the first management institute of India was thus established by Dr. B.C. Roy, the then Chief Minister of West Bengal as its Founder -President and Prof. D.K. Sanyal as the first Director. The Government of India, Department of Post in recognition of 50 years of glorious existence of the first B-School in the country, released a Commemorative Postage Stamp on IISWBM, on 25th April 2004 in New Delhi.

The institute boasts of state-of-the-art infrastructure, strong faculty base, successful alumni, excellent hostels, rich library and exceptional placement records.

About

iNurture Education Solutions Pvt. Ltd.

Established in the year 2009, iNurture is the pioneer in enabling career-ready formal higher education in India. It strives to strengthen 'employability quotient' across the complete spectrum of adult learning - from colleges to corporate.

On the formal higher education front, iNurture supports universities and autonomous institutions to 'intelligently nurture' students through new-age undergraduate and postgraduate programmes. iNurture focuses on fast-growing, domains such as Information Technology (Cloud Technology, Information Security, IT Infrastructure, Mobile Application, Web Technology, Big Data, Artificial Intelligence and Internet of Things), Marketing Leadership and Innovation (Digital Marketing and Advertising, Brand Management and Communication, International Business, E-Commerce, Tourism and Hospitality Management, Sports Management and Luxury Management), New Media (Digital Filmmaking, Visual Effects and Animation), Financial Services, Business Analytics and Design.

iNurture also offers short-term certification programmes under the brand iNurturePro for working professionals in various new-age domains to accelerate their career growth.

IISWBM, iNurture Education Solutions Collaboration

IISWBM and iNurture Education Solutions have come together to offer advanced, career-ready PGDM programmes in fast-growing new-age industry sectors.

PGDM Business Analytics (Full Time - 12 months)

Workshop on 'Managing Unstructured Data'

About the Programme

Most industry sectors have recognised the value that business analytics can provide in not only driving compelling business solutions, but also in helping them to differentiate themselves to customers, investors and regulators. The global business analytics is a USD 105 billion market, growing at a CAGR of 8%. India, with its surfeit of talent, has become the analytics hub for organisations across the world. Large corporate firms like Walmart, Target, Citibank, ICICI Bank, Airtel and Vodafone are increasingly adopting analytics in their processes. Consulting giants like PwC, IBM, Accenture, and Infosys have large teams offering analytics solutions to their clients. All of these translate into a huge global and domestic demand for business analytics professionals.

The curriculum is designed to provide an in-depth hands-on learning in business analytics domain techniques which enable students to analyse and solve problems conceptually and practically.

Programme Objectives

Students are exposed to concepts, subjects and tools that are highly relevant to present day market. The programme equips students with the knowledge and skills required to be successful in the business analytics domain:

- Learn the fundamentals of statistics for business, DBMS SQL and R programming
- Gain exposed to concepts of business foundation, data visualisation and operations research
- Learn in depth about data mining, big data analytics and time series econometrics

Course Duration
12 months | Full-time

Eligibility

Applicants must have completed graduation from a recognized university with minimum 45% marks. Applicants must also have reasonably good quantitative aptitude with minimum 45% marks in CAT/MAT/ATMA/CMAT/Institute's entrance test.

Programme Fee Structure

The programme fee for PGDM Business Analytics is Rs. 2.25 lacs and additional Rs 10,000/- (refundable as security deposit).

Curriculum*

Foundation Program
Introduction to Advanced Spreadsheet Modeling

Executive PGDM Business Analytics (Weekend-15 Months Programme)

Workshop on 'Introduction to Text Mining'

About the Programme

Business analytics is an upcoming domain which has been recognised as an important and unavoidable practice to be adopted by almost all business organisations irrespective of their size and line of activities. A significant capability enhancement has been taken place particularly in the last decade regarding data or information acquisition and this has led to the need of analysing the same for taking out meaningful insights and then plugging those with the decision making and updating policies for better organisational functions.

Business analytics is the next big opportunity globally and in India. At the same time, the industry is witnessing an acute shortage of skilled talent. With leading Indian and global companies scouting for talent, a combination of business management and analytical training can propel a candidate to managerial and leadership roles in the analytics industry.

Though, the need for Data Analysts in our country and in the whole world has been clearly visible, the supply side of analytics professionals is weak by all means. IISWBM Executive PGDM Business Analytics (Weekend-15 Months Programme) has been conceptualized with the help of industry experts.

Programme Objectives

The programme is designed to educate students on how to apply business analytics solutions to real-world problems to arrive at most profitable decisions. Following are the objectives of the programme:

- To prepare participants in the areas of data acquisition, analysis which help them arrive at meaningful insights based on scientific judgements
- Equipping participants with the advanced tools and techniques used in analytics domain
- To prepare students to learn popular statistical software being used by analytics industry

Course Duration

15 Months (12 Months of classroom teaching + 3 months for completing project)

Eligibility

Eligibility- Applicants must be graduates in Engineering, Mathematics, Statistics or B.Com discipline with minimum 45% marks or equivalent CGPA from a recognised university and should have minimum 1 year of corporate or entrepreneurial experience. Applicant will have to qualify institute's entrance test followed by Personal interview.
